Figure 1 shows two 4x4 binary matrices. Matrix (a) has a black border and a white center. Matrix (b) has a black border and a white center, but with a different internal pattern.

Figure 1 consists of two line graphs, (a) and (b), showing the percentage of respondents for different levels of agreement with the statement "The government should do more to help people who are struggling financially".

Graph (a) shows the percentage of respondents for different levels of agreement (Strongly agree, Agree, Disagree, Strongly disagree) across four groups: All respondents, Those who are struggling financially, Those who are not struggling financially, and Those who are unsure.

Graph (b) shows the percentage of respondents for different levels of agreement (Strongly agree, Agree, Disagree, Strongly disagree) across four groups: All respondents, Those who are struggling financially, Those who are not struggling financially, and Those who are unsure.

Both graphs show that the percentage of respondents who strongly agree or agree with the statement is highest for those who are struggling financially and lowest for those who are not struggling financially. The percentage of respondents who disagree or strongly disagree is highest for those who are not struggling financially and lowest for those who are struggling financially.

Level of Agreement	All respondents	Those who are struggling financially	Those who are not struggling financially	Those who are unsure
Strongly agree	15%	25%	10%	12%
Agree	35%	45%	25%	30%
Disagree	25%	15%	40%	20%
Strongly disagree	25%	15%	25%	38%

Level of Agreement	All respondents	Those who are struggling financially	Those who are not struggling financially	Those who are unsure
Strongly agree	15%	25%	10%	12%
Agree	35%	45%	25%	30%
Disagree	25%	15%	40%	20%
Strongly disagree	25%	15%	25%	38%
